ABOUT ME

Enthusiastic IT student passionate about web development, data structures, and programming. Eager to contribute skills and creativity to the dynamic world of technology.

SKILLS

- Web Design-HTML,CSS
- Javascript
- ReactJs
- ReduxToolkit
- NextJs
- Styling Libraries - Tailwind
- NodeJs ExpressJs
- Zustand
- Database-MySQL, MongoDb
- Git and Github
- Problem Solving
- TypeScript

PROJECTS

1 - DevExperiences - A developer job experience blogging platform   **Live Demo**   **Github**

- Tech Stack- REACT, Typescript , TailwindCSS, Shadcn Ui , QuillJs
  Redux Toolkit, Prisma, PostgreSQL , Hono
- Users (developers) can post their interview experiences as blog entries.
- Users can filter blog posts based on specific criteria to find relevant interview experiences.
- Upvote and downvote functionalities allow users to react on interview experiences.
- Utilize Quill.js to provide a user-friendly and dynamic editor for composing interview experiences. Users can format text, add images, and leverage other rich text features

2 - CodeSpace- A code collaborator platform   **Live Demo**   **Github**

- Tech Stack- REACTjs, TailwindCSS, Redux Toolkit, Socket.io, Pastebin API ,Codemirror api
- Real-time Collaboration: Using Socket.io for instant updates and synchronization.
- Syntax Highlighting: Integrated CodeMirror API for code readability.
- Code Sharing: Leveraged Pastebin API for seamless snippet sharing.
- Dynamic User Interfaces: Developed interactive UI with React.js.
- Efficient State Management: Used Redux Toolkit for scalable state management.

2 - DevChats- A simple chatting webapp   **Live Demo**   **Github**

- Tech Stack- REACTjs, CSS , ZUSTAND, Firebase(Authentication, Firestore)
- React.js: Builds the interactive and dynamic chat interface.
- CSS: Styles the chat app's visual appearance (layout, colors, fonts etc.).
- Zustand: Manages chat application state (conversations, users, messages).
- Firebase Authentication: Securely handles user login and registration.
- Firebase Firestore: Stores chat messages, user data, and facilitates real-time updates.

EDUCATION

Lakshmi Narain College of Technology(2021-25)
Information Technology
CGPA - 8.10

ACHIEVEMENTS

- Participated and came in top 5 teams at E-SUMMIT HACKATHON at MANIT Bhopal
- Solved over 300 data structures and algorithmic problems over different platforms
